

## *Merry Christmas & Happy New Year*

*Hello Friends at Big Sky HOG*

*Wow, I can't believe that Christmas is almost here and that Gary & I have been in our new home 4 months already...where did the time go? It feels like yesterday since we left Montana...although I'm glad we missed your weather but it should be arriving here tomorrow.*

*As much as we are liking our new home and being near family we are missing Montana and all of our friends. I was undecided about Mt until we got more involved with the HOG group. The more trips we took & the more friends we made the harder our decision was to leave...still we are unsure whether we made the right choice.*

*Gary recently took a new job...the one he thought he had back in April was offered here in Omaha at the VA and he does like it alot. Me, well I have a major learning curve to deal with. I'm working at a bank again but in the mortgage dept...quite different from consumer loans.*

*We have done some riding together here but not much. Gary was riding to work everyday when the weather was good and we rode to Nebraska City and thru Loose Hills in Iowa. We did participate in a Patriot Ride for an MIA veteran whose remains were brought back from Vietnam. As it turned out, the remains belonged to Gary's cousins wife's family. It was her uncle, talk about moving...wow!!!*

*Well we miss everyone alot & we look forward to vacationing up north, in the summer. If anyone is headed this way, keep us in mind. Our trips will be locked in memories & our friendships always treasured. Have a great holiday everyone.*

*Debbie & Gary Stuckenschmidt*
