

3-Day Off-Site Adventure Tour FAQs

How long are we at the Performance Center?

Your day will start with a few basic On-Road and Off-Road exercises to prepare you for your three-day tour. You will be at the Performance Center from 8:30am until approximately 10:00am.

What time should I arrive at the Performance Center?

You should arrive at the BMW Performance Center between 8:00-8:30am.

Is breakfast included on the first morning?

No, breakfast is not provided the first morning. However, during the week the BMW Performance Center café has a great breakfast for sale at a great price. Feel free to come in a little early and grab a bite. The café starts serving at 7:30am on weekdays only.

What do I do with my luggage?

We will be taking an X5 and trailer along with us as a support vehicle. The vehicle will not drive the same path as the riders, but will meet us at specific locations. Feel free to put your luggage on the trailer. Space is limited so please limit your luggage to one standard suitcase and one duffel bag/dry bag per rider.

What type of riding gear do I need?

For riding gear you are required to wear a helmet, over the ankle boots, riding gloves and knee and elbow protection. We recommend a versatile riding suit because the temperature change between the BMW Performance Center and the locations in the mountains can be as much as 20 degrees. And as always, don't leave home without your rain gear!

How many riders are typically in the tour?

In the Three-Day Adventure Tour we need to have a minimum of five (5) riders to do the program, and we cap the school at 12 riders.

How do I book a class?

You can book your 3-Day Adventure Tour by calling our registration desk at 888.345.4269. Registration should be available online soon as well.

Can I bring a passenger and ride two up?

Yes, you may bring a passenger. They will ride with you on your bike and all meals will be at your expense.
