Standard color/stripe options

All new for 2012, the Launch 32 is the logical next step for the active boater that still wants a bow rider but also the option to overnight at a moment's notice. It offers an ample aft sunbed, sleep-in cabin and head to accommodate all the comforts that your family and guests deserve. Sleek proportions and practical configuration make this Launch well-suited to long excursions but still remains practical for champagne cruises.
