STANDARD ENGINE WINTERIZING

(ALL ENGINES) Our technicians will run your engine to operating temperature and go through a 26-point mechanical/electrical check sheet, making sure all systems are operating properly. A stabilizer is then added to preserve the fuel and to protect fuel delivery systems. The engine is then drained and anti-freeze is added where it is required. All batteries are checked and disconnected. **Outboard motors** are fogged and protected. The winterization is completed with a courtesy inspection of the outside hull.

FLAT RATE LABOR CHARGES

Does not include applicable parts or supplies

4 Cylinder I/O Engines	150
6 & 8 Cylinder I/O & Inboard Engines	175

OUTBOARDS

	<u>2-Stroke</u>	<u>4-Stroke</u>
2 Cylinder Engines	50	80
3 Cylinder Engines	95	120
4 Cylinder Engines	105	140
6 Cylinder Engines	115	160

OPTIONAL ENGINE SERVICES

In addition to a standard winterizing of your engine, the service department recommends performing annual or bi-annual inspections of your outdrive and lower unit. This includes removal of the outdrive, coupler inspection, alignment and U-joint check, as well as a lubing of the internal parts.

We also advise boaters to have water pumps replaced every two years for safe operation. Oil change of the engine and lower unit are also highly recommended in the fall service to protect the life and performance of your motor.

FLAT RATE LABOR CHARGES

Does not include applicable parts or supplies

Oil & oil filter change	70
Lower unit lube change	30
Outdrive service (single prop)	140
Outdrive service (dual prop)	175

TOTAL CARE SERVICES

Gull Lake Marine offers "total care" services that include boat ramp haul-outs, overhead crane lifting, as well as services for sailboats, wooden boats, and larger sized boats.

In addition, we can bring your boat back to it's original luster with our professional detailing and cleaning services. Detailing includes bottom hull cleaning & power wash, buffing & waxing of the exterior, a shampoo of the interior carpets, a cleaning of all surfaces & compartments, vacuum, and is completed with a spray-on protectant.

Acid wash with detail, please add \$80 for boats under 20 feet, if over, please call for a quote.

Full interior detail only	11/ft
Bottom power wash	8/ft
Acid wash only bottom hull	12/ft

HAULING & STORAGE

Gull Lake Marine offers boat pick-up and delivery within the state of Michigan. Charges are based on one or two man crew and each loaded mile returning the boat to our storage site. Gull Lake customers are welcome to dock their boat at the main dock of our Bay facility one day prior to date of service to avoid pick-up charges.

Gull Lake Marine also offers "state of the art" inside storage with a capacity for 600 boats. A limited amount of heated storage space is available for the best protection of your boat(s). All of our storage buildings are designed specifically to protect your boat and include passive or active humidity controls.

RATES

Gull Lake pick-up (inside Bay area)	25
Gull Lake pick-up (outside Bay area)	50
All Other Lake pick-ups	40
*Plus additional \$2 per loaded mile (meeting customer at ramp)	
Second man for dock pick-ups, please add \$50	
<i>*Mileage determined using MapQuest</i>	

STORAGE RATES

Inside protected storage	25/ft
Inside heated storage (premium service)	32/ft
Outdoor storage (per boat)	250

All rates are subject to change without notice.
