Bonus Depreciation and Section 179 Deductions Extended Through December 31, 2011

The Section 179 Deduction and Bonus Depreciation has been significantly enhanced for the tax year 2011 - giving businesses an incentive to invest in themselves by purchasing, financing or leasing new equipment.

What is Bonus Depreciation?

A 100% bonus depreciation deduction is included in the "Small Business Jobs & Credit Act" for qualified new equipment acquired and placed in service during 2011. The "Tax Relief Act" extends and expands the Bonus Depreciation available to businesses spending more than \$2 million on capital equipment to write off 100% of the cost.

What is the Section 179 Deduction?

Quite simply, Section 179 allows a business to deduct the cost of new equipment purchased during the tax year up to \$500,000. It is an incentive created by the Federal Government to encourage businesses to invest in equipment.

Who qualifies for the Section 179 Deduction?

The Small Business Jobs and Credit Act extends the 179 deduction of up to \$500,000 to companies that purchase less than \$2,000,000 in business equipment during 2011. In order to qualify, equipment must be placed into service between January 1, 2011 and December 31, 2011. Additionally, the Tax Relief Act of 2010 allows a 100% deduction to continue if more than \$2,000,000 of equipment is purchased. In other words, if you buy enough equipment to exceed the \$500,000 deduction, you can take a "bonus" 100% depreciation on the rest.

Why is this important?

With the enhancements to the section 179 deduction and the availability of bonus depreciation for the remainder of 2011, qualifying companies can greatly accelerate depreciation on equipment purchases thereby reducing taxes in the current year. The savings drop directly to the bottom line. The examples below show savings if you plan to purchase \$39,000 of equipment or \$600,000 worth of equipment

Examples	Average Deal	Large Deal
Equipment Cost	\$39,000	\$600,000
Section 179 Expense Reduction	<\$39,000>	<\$500,000>
Depreciable Equipment Balance		\$100,000
100% Bonus Depreciation		<\$100,000>
Total Yr 1 Expense/Depreciation Deductions	\$39,000	\$600,000
Tax Savings (assuming 35% tax rate)	\$13,650	\$210,000

Additional Considerations: Used Equipment (that is new to you) qualifies for Section 179, however used equipment does NOT qualify for Bonus Depreciation.

ACT NOW - Section 179

is available. The 2011 enhancements offer small businesses a great opportunity to maximize their purchasing power. Consult with a tax professional to verify that your company is leveraging the Section 179 Deduction this year.

K.C. Bobcat

Two GREAT Kansas City Traditions!

Boulevard Brewing Co. and KC Bobcat— two great Kansas City Traditions! KC Bobcat is proud to welcome Boulevard Brewing Company as a customer, with their purchase of a new Bobcat 5610 Toolcat. The Toolcat will assist in landscaping, facility maintenance, snow removal, and various other jobs around the brewery.

Boulevard Brewing Company is proud of its 21-year history as “Kansas City’s Hometown Beer. Through their success, they have helped to satisfy Midwest Americans thirst for fresh, flavorful, great-tasting ales and lagers.”

Boulevard Brewing Co. is sold in 21 states, 8 partial-state distributions and is the second largest brewery in Missouri; the 17th largest brewery in the United State and the 10th largest craft brewery in the United States. Its’ beer portfolio consists of 7 year-round and 5 seasonal brews. The Smokestack Series has multiple year-round, seasonal and limited-release flavors. The total brewing capacity equals 600,000 barrels and the total fermentation capacity is 200,000 barrels. The sales goal for 2011 is 160,000 barrels. Boulevard Brewing has 96 full time employees.

Boulevard Brewing Company has grown to be the largest specialty brewer in the Midwest, dedicated to the craft of producing fresh, flavorful beers using traditional ingredients and the best of both old and new brewing techniques. All Boulevard beers begin with specially selected carefully inspected ingredients. Their brewing process is designed to maximize flavor, from the brewhouse to the bottle.

Steve Meadows President of KC Bobcat states, **“we are excited to be working with Boulevard Brewing Company. Not only are we big fans of their products, but fans of the Boulevard brand and how they run their business. They are good people making a fantastic product and taking care of their customers and employees. We are proud to be associated with Boulevard Brewing Company.”**

KC Bobcat thanks Boulevard Brewing Co. for a great beginning to a long-lasting business partnership in Kansas City!

Boulevard Brewing Co.’s Founder, John McDonald, accepts keys to their New Bobcat Toolcat 5610 from Steve Meadows, President of KC Bobcat.

Boulevard Brewing Co. used a Bobcat S185 Skid-Steer to beautify the facility.

Bandit Chippers & Stump Grinders

SAVE TIME and MONEY

with your **CHIPPER.**

Each chipper is unique. Bandit offers a wide variety of options, which allows you to customize your unit to fit your individual needs. Our assembly teams take pride in producing the highest quality chipper possible, and we maintain a high level of quality control during construction. All this allows you to custom order a machine with features and options that best fit your needs and your budget. Engine options from major engine manufacturers allow you to select the engine for your Bandit chipper that matches your equipment fleet.

FIVE NEW M-SERIES LOADERS

S770

T750

S750

T770

A770

700 platform loaders give customers options

“The 700 platform loaders are the newest M-Series machines. They have all the M-series improvements in performance, operator comfort, uptime protection and serviceability, and compare in size to the S250, S300, T300, T320 and A300 from the previous series.”

— Mike Fitzgerald, Bobcat Loader Specialist

S750

The S750 can help you power your way to top performance in construction, landscaping, nursery and other jobs. Lifting and loading is easier and faster because the machine achieves maximum reach at full lift height. It's a machine you can comfortably operate all day to maximize productivity. The wide assortment of Bobcat® attachments available make a variety of jobs possible with the S750.

Rated operating capacity: 3200 lb.
2-speed travel options: Available
Selectable Joystick Controls: Available
Lift path: Vertical
Engine: 85 hp turbo diesel
Lift height: 11 ft.
Operating weight: 8730 lb.
Auxiliary hydraulic flow: 23 gpm
High-flow option: 36.5 gpm

S770

A big loader that produces big results, the S770 brings a lot to the jobsite — excellent horsepower, hydraulic breakout force and impressive tractive effort. These traits pay off when you need a machine for tough digging, loading, pushing, grading and other difficult assignments. The operator-friendly loader will keep producing best-in-class results in rugged construction, landscaping, demolition and other applications.

Rated operating capacity: 3350 lb.
2-speed travel options: Available
Selectable Joystick Controls: Available
Lift path: Vertical
Engine: 92 hp turbo diesel
Lift height to hinge pin: 11 ft.
Operating weight: 8730 lb.
Auxiliary hydraulic flow: 23 gpm
High-flow option: 36.5 gpm

T750

The T750 brings top-notch flotation, extra traction, greatly reduced ground pressure and low ground disturbance to any job-site. This powerful vertical-lift-path loader will allow you to work earlier in the spring and later in the fall. Travel up to 10.8 mph with the new two-speed option.

Rated operating capacity: 3350 lb.
2-speed travel options: Available
Selectable Joystick controls: Available
Lift path: Vertical
Engine: 92 hp turbo diesel
Lift height to hinge pin: 11 ft.
Operating weight: 8730 lb.
Auxiliary hydraulic flow: 23 gpm
High-flow option: 36.5 gpm

T770

The T770 has incredible strength that is readily apparent when you need to grade, push and lift in difficult circumstances. Excellent flotation and enhanced traction keep the machine moving in bad weather and less-than-ideal ground conditions. Productivity stays high with more than 40 Bobcat-approved attachments. The vertical-path-lift arms provide excellent reach for lifting and dumping into tall trucks.

Rated operating capacity: 3475 lb.
2-speed travel options: Available
Selectable Joystick Controls: Available
Roller Suspension™ System: Available
Steel track undercarriage: Available
Lift path: Vertical
Engine: 92 hp turbo diesel
Lift height: 11 ft.
Operating weight: 10327 lb.
Auxiliary hydraulic flow: 23 gpm
High-flow option: 36.5 gpm
Ground pressure: 4.2 psi with wide tracks

A770

The A770 is the M-Series version of the popular all-wheel steer loader and replaces the A300. The A770 allows you to work in a unique and productive way with two different steering modes for improved jobsite efficiency. In the all-wheel steer mode, both the right and left sides work together to minimize turf damage and reduce tire wear. The inside tires turn at a different angle and speed than the outside tires. In the skid-steer mode, the tires on the left side work independently of those on the right side to achieve maximum maneuverability.

Rated operating capacity: 3325 lb.
2-speed travel options: Available
Selectable Joystick Controls: Available
Lift path: Vertical
Engine: 92 hp turbo diesel
Lift height to hinge pin: 11 ft.
Operating weight: 8730 lb.
Auxiliary hydraulic flow: 23 gpm
High-flow option: 36.5 gpm
