

BENEFIT FOR 1 YEAR OLD AIDEN

PROUD PARENTS & GRANDPARENTS
ROBBY & TABITHA / WES & JANINE

This nightmare started just days after Christmas with Aiden having a cold, which led to pneumonia and a heart attack, to brain damage & blindness. His diagnosis is severe and profound mentally and physically handicapped. His parents with the help of Wes & Janine have decided not to institutionalize him but to care for him and his many needs. Aiden will need 24-hour care, which means Mom will not be able to return to work. These young parents need our help.
