**RCR
YACHTS**

What's New? By Don Finkle: This morning I helped load my sails into Brad's truck to go to Ullman Sails Buffalo for winter check-over and storage. As I was helping him brick them I had conflicting thoughts about the season finally being over, and the fact that we are already looking forward to and planning the 2010 season. I find that planning the upcoming season helps get through the off season.

Speaking of Sails, there was a significant shake-up this year in the Quantum group. Our understanding is that Quantum corporate made changes that did not sit well with some of their individual loft owners and a number of them split off. Some formed the new brand Evolution Sails, and others like the Dieballs went on their own. Not taking any sides here, just passing info.

Speaking of Sales, we are pleased to report that we have had a lot of interest in and sales of several Beneteau First 10R's and 36.7's of late. Great boats at great prices while the incentives last, but there are not many left at these prices. Race one design and PHRF in a boat you can cruise or entertain on.

Frostbiting is in full swing in Buffalo and Rochester, see news and results below. Each series welcomes newcomers, contact info is also noted.

Rochester YC's Liz Bower along with her Rolex crew finished second in the WIMRA in St. Thomas

Rochester YC 2009 Season Award Winners: This issue we have included the

winners for all RYC trophies in the Results section, a very lengthy list!

Your Help Needed: The LYRA Regatta Organizers at Buffalo Yacht Club would like your input into the planning of next summer's annual regatta. They have put together a brief survey of options and offerings. Please take a few minutes to take the survey and offer your suggestions and comments. As with any regatta, organizers work very hard for months in advance of the regatta to insure the participants have great racing, food, and entertainment. As guests of BYC please take the time to help the committee plan for you.

To receive the LYRA newsletter and take the survey follow the Link to LYRA and sign-up for the newsletter. <http://www.lyrawaters.org/>
Thanks, Ted Johnson, Tom Lewin, Peter "Louis" Johnson, Buffalo Yacht Club

PHRF-LO News, by Diana Riley:

PHRF-LO AGM attendance request: "The AGM has been set for Saturday, January 9, 2010 10:00 am, at the Toronto International Boat Show.

Our meeting room is Room 110 East. If you are planning on attending, please send me an email or call 1-800-488-9885, so that I can add you to the list of attendees and have a binder for you when you arrive.

PHRF-LO Request for Results: I need to receive your Clubs race results by no later than December 15th in order to be able to have the analysis prepared for the AGM. If you are unsure if I have received your results, you can check on-line at:

http://www.phrflo.org/index.php?option=com_content&task=view&id=92&Itemid=78

If you need more information about the acceptable formats, please refer to:

http://www.phrflo.org/index.php?option=com_content&task=view&id=36&Itemid=78 Or look under "Information", "Race Results" from our main menu. Remember, by sending them in, your club is eligible for a credit against your club dues for 2010. If you have any questions or concerns, please do not hesitate to contact me. Regards, Diana Riley, Executive Assistant PHRF-LO"

IRC Racing for 2010: It looks like RYC will be having an IRC racing fleet for 2010 season. Currently we have seven boats with IRC ratings and two more are planning to be measured in early May here in Rochester. Lake Ontario is hoping to have the Great Lakes IRC Championship as part of LYRA next year. If you would like more information on getting an IRC certificate next spring please contact John Odenbach.

Personalized Greeting Cards with Photo of Your Boat: "As the holidays approach, we are happy to offer custom-printed Tim Wilkes Photography fine yacht racing Greeting Cards. You can easily choose a photograph of your boat by looking at our Regatta Archives. We will be happy to include your boat name and a personalized greeting on the inside of the cards, just make a note of your preferred text in the special instructions field of the order form.

All Greeting Card orders placed before December 1st, 2009 will receive a 10% discount (regular price \$60 for two dozen cards). Discounts may not appear on original receipt, but will be confirmed via email. Please feel free to call or email us if you have any questions. Happy Holidays to you, your family, and crew!"

Tim Wilkes Photography

Eastern Yachting Circuit: "Last weekend EYC launched their website. It is still being developed with content being added from week to week. The site is located at: <http://www.easternyachtingcircuit.org>
Thanks, Dave Lochner"

Hospice Event Dates 2010, thanks to Hank Stuart:

June 3-6, Hospice Regattas National Championship, hosted by RYC

August 21, Rochester Hospice Regatta, Hosted by GYC

Buffalo Yacht Club Season Winners, by Eric Christensen: Dick Ham, sailing his Laser 28 was best overall Buffalo Yacht Club boat on the Lake Erie Interclub Regatta and received the Courier Express Award. Dick, finished fourth overall out of 56 entrants, besting a tough fleet of several well-sailed Beneteau 36.7's, J-Boats, Shocks and other custom and production race boats.

For the Wednesday evening buoy racing, the overall winner was Don and Paul Seitz's J/27, Seitz-Seer. Seitz-Seer received the Club Wheel and the father-son team has been sailing together for as long as I can remember has been tough to beat in both J/27 one-design and PHRF events. Nice job Team Seitz.

The Buffalo Yacht Club BOTY award goes to my dad, Jim Christensen and Robert Gradwell sailing Jim's Andrews 30, Hot Pursuit. I was thrilled that I could have Bob and his son Tom sail with us this summer. Their efforts were tireless and they contributed to a big part of our success. After winning this several years ago on our previous boat, my dad was thrilled to have done it once, but I think having the opportunity to do it again with a boat that was still new to us really made it special. The crew work and driving was spot on which allowed us to focus on refining our sail combinations and trim and it really paid off."
(from Haarstick Sailmakers Loft Lines newsletter)

Dec 9, BUFFALO MARITIME CENTER 2009 HOLIDAY PARTY: "This year we would like to extend an open invitation to all interested in "messing around in boats" to attend the Holiday Party...Bring a guest(s) to share in the excitement of the Maritime Center. We welcome more believers, supporters and contributors to our efforts. Great fun to be had sharing the holiday spirit at the boat shop!

5:30 to 9:00 pm

Maritime Center (901 Fuhrmann Blvd.) 878-6532

\$10/person includes beer, wine & soft drink.

Please bring an hors d'oeuvres, dessert, or snack.

Thanks, Steve Krzesinski"

Check out the creation of Rochester sailor Sam Weiner: <http://myyc.org/>

The 2010 racing calendar is coming together nicely. Each week we will add more events as we get them. Planning ahead is the best way to make sure you maximize your sailing time and boat usage.

Newport YC (Rochester) has three Optimists for sale: Decent shape, Best Offer, Call Philip Lange 585-727-4450 Philip.lange@gmail.com

Let RCR Find Your Next Boat, or Sell Your Existing One: Once in awhile we need to remind our readers that we are actually in business. It is nice to provide a service to the sailing community and hopefully our

readers will remember us when it comes time to buy or sell a boat. We do know what we are talking about!

Frostbite News:

RFA Dues: "I'd like to clear up a misunderstanding of the RFA dues. If you are a regular adult RFA member with a boat at the club, only pay the \$205 (RYC Member) or \$255 (Non-RYC Member) fee. Do not pay the \$75 fee in addition.

If you do not have a boat at the club, then only pay the \$75 fee regardless of RYC affiliation. Rob Mendenhall"

RFA Flash for Nov 8, by Jeff Sullivan: "First day of racing for the 57th year of frostbiting occurred in little to no breeze, but thanks to the skill of Joy, Lambo at RC and Mendenhall, Cucci, Loftus and new member Paul Owen running crashboat we got nine races off. With the starting line off the corner of the RYC, the windward mark off of Ollies and the leeward mark right in the middle of the river we had tons of fun. Joy was kind enough to help us enforce kinetics, which of course I was lucky enough to do a circle, things were kept clean. Winning the day was recently turned 27 (might have that wrong) Jimmy Barnash, but nipping at his heels all day was the ginger Griffin Orr who had sound tactics uphill and some nice boat speed going the other way. Jeff Sullivan"

RFA Flashes for Nov 15, by Rick Howitt: "With light winds out of the southwest and temperatures in the high 50 the race committee setup on the seagull pier. The windward mark was set up near the south end of the ferry terminal and racing got under way with winds in the 5 to 7 range. Even though there appeared to be more pressure on the right side racers quickly realized that staying out of the current, to left, was the better race plan.

After Three races a large wind shift occurred changing the wind to north west bring with it a large temperature change as well. The temperature went from the high 50's to the mid 40s. The crashboats quickly setup a new course and 2 more races were run with winds that were almost non-existent at times.

The winds swung around to the southwest and the race course was moved again, close to its original position.

But the winds stayed light and staying out of the current was key to any race plan.

Jim Barnash, Griffin Orr and Mike Ingham were the big winners for the day. There were 21 boats on the line at one point and with several boats switching skippers every couple of races there were 24 or 25 people racing.

Thanks go out to Lambert and Paul for running the races and a couple of others that help them and on the crashboats were Rob, Sam, Bobby and Rick.

There was one major swamping by Kyle, who was heard to say " Wow, these things hold a lot of water. Why do you race them?"

See you next Sunday and do forget there is double handed racing on Saturday (racing starts at 1PM)."

Double-handed IC Racing, by Jim Barnash: "We are having double handed IC sailing this coming Saturday, Nov 21 as well as Dec 5 and Dec 19. Racing is scheduled to start at 1pm. We need on 4 crashboat and RC still. Serving on crashboat will count towards the four days each RFA sailor is required annually, contact Bill Dexter regarding crashboat. Who can help with RC/Crashboat ???

The format is total crew weight dressed in sailing gear at 315 lbs minimum per team. Boats must weigh a

minimum of 250 lbs. The scale in the Junior building will be used. Extra ballast must be carried to make up any shortage in weight.

Thanks, Jim Barnash"

RFA IC Measurement: Nov 22 & 29, 9:00-12:00 - MUST READ:

We will be measuring boats the next two Sundays, 9:00-12:00. We will not measure in rain.

Please read the following and have your boat ready. We will be set up to get the measurements done quickly. Boats can be lined up in advance of 9:00 on the West side of the parking lot near the tennis courts. We will use either the hoist or the gin pole. First come, first served.

We will measure the following:

1. All-up weight. Consisting of: hull, mast(installed), boom, centerboard(installed), rudder, standing rigging (installed), running rigging(installed), tiller, tiller extension, any corrector weights.

All-up weight notes: Any items not specified shall be removed from the boat. Bouyancy tanks must be open and dry. Bilges and hull must be dry. If you choose to weigh with corrector weights installed they cannot later be removed. If you bring your boat with the corrector weight removed, we will allow you to add weight at Measurement. We will not wait for you to remove weight during Measurement. Corrector weight will be sprayed orange, be signed by the Chief Measurer along with weight and date, and must be permanently affixed in a visible location. "Permanently affixed" means: bolted, screwed, glued, bedded in silicone or 5200... and does not include: weight tossed into your tanks, lashed in with line, duct taped to your thwart, or other temporary method. The following Measurement Data will be enscribed on your transom: Owner's name, hull#, hull weight, weight of correctors, Chief Measurer's mark, measurement date. We need hull #s not sail #s. If you do not know your hull #, we will assign one.

Lifting Note: We will use a lifting bridle that will attach by a shackle, to your chainplates above the gunwhales and then to a sling around the the aft bottom. If you do not have linear chainplates or graduated chainplates installed on your boat, please install your mast with no shrouds attached to the hull so that we can attach our bridle to the shroud tang at the gunwhale.

2. Mast height: Height of main halyard sheave box above the mast partners.

3. Measurement Fee: Payable at time of measurement: one six-pack of quality imported or micro-brewed hops. For our VIP's; A bottle of Glen Livet, Glen Moranghie or Gosling's Black Seal will move you to the front of the line and your obvious refinement and good looks will be noted at the highest levels of the organization.

History/Future/Purpose: Jeff Sullivan started the measurement process last year and we thank him for his efforts. This year Travis and I will continue his work by adding the mast height measurement. I am working on an official Measurement Certificate that the Chief Measurer will keep on file for each vessel. Copies will be available to those who want them for their file. Our goal is to gradually bring the boats into compliance with the rules and further the principal of one-design racing in the Rochester Frostbite Association.

Compliance: I am proposing to the Governing Board that they mandate the following: "All competing boats must comply with current measurement rules by December 13, 2009 or find themselves ineligible for competition. A non-compliant boat may compete at the sole discretion of the Commodore. In such case, compliant competitors shall be notified of the Commodore's approval for racing of a non-compliant vessel and the reason(s) therefor. Commodore's approval is "per race day" and does not constitute a continuing approval. Commodore's approval shall be conditioned upon compliance with all other RFA rules, the RRS, and acknowledgement that the competitor's scores may be posted but will not be calculated.

Misc. We seem to have a collection of unclaimed/unidentified hulls, parts, pieces around RYC and the RFA shed. Prior to measurement, please conspicuously label all parts and pieces of your vessel with your name and hull #. This should help us minimize the likelihood of missing/misplaced items, expedite the Fall sorting process and allow us to repatriate components with their respective hulls. Please make any notes regarding ownership, or last known ownership, on the transom of any hull not containing Measurement Data on her transom. The Chief Measurer will submit an inventory of unclaimed/unidentified hulls and other components to the Commodore on, or about, December 13, 2009.

Crew weight: Since at least 2007, and again recently, there has been vigorous discussion on the subject of establishing a minimum crew weight and its relationship to competing on a "more level" field. This is a measurement issue. If you have an opinion on this subject, let me know. I am not attempting to give traction to what is perhaps, a non-issue but I do want to take an unscientific poll to see if this issue is real, or instead, post-race sour grapes.

Finally, as previously mentioned, Travis Odenbach is working with me on these projects and I appreciate his participation. Bryan Jerman"

Manson Introduces Anchor Designed For Racing Yachts:

Lightweight, Easy-To-Handle Racer Sets Fast, Stores Compactly. The new Racer Anchor from New Zealand-based Manson Anchors is the first production anchor specially designed for racing yachts.

The strong but lightweight, high-tensile anodized aluminum anchor holds firmly in virtually any type of seabed. Durable stability balls set the Racer faster and resist rotation while embedded in the sea floor. The balls also reduce the width of the lower balance bar, which makes the anchor easier to stow in lockers or anchor wells - and they act as a guard against sharp bar ends and edges to help protect a yacht from damage.

Currently available for racing yachts from 12 to 45 feet. An optional padded storage bag features dual internal pockets - one for the anchor, one for the chain and rode.

The Manson Racer features and benefits include:

- Made of lightweight, heat-treated high-tensile aluminum-magnesium alloy
- Hand-welded for ultimate strength
- Fully assembled in one piece and ready to use
- Shank angle up to 30 degrees for effortless anchoring in sand or mud
- Unique weights at end of the stock improve seabed performance, allows compact design
