

LONEStar

TOP TEN REASONS TO BUY AN INTERNATIONAL® LONESTAR®

Be Original

1 NEW “ADVANCED CLASSIC” THAT MERGES CLASSIC STYLING WITH AERODYNAMIC PERFORMANCE

The LoneStar® is in a category of one. International® identified an unmet need in the marketplace. Classic owners who pride themselves on the personalization of their trucks and the aero owners who also want the style of a classic tractor, but don't want to sacrifice fuel economy.

Therefore, we set out to meet the combined needs of the classic owner who is image-conscious and seeks personalization, but historically sacrificed performance to get this, AND the aero buyer who is more concerned with fuel efficiency. With the LoneStar, we developed an entirely new category, “Advanced Classic.” Combining the needs of both aero and classic drivers. Giving customers a classic-looking truck with the fuel economy benefits of aero products.

2 40 PLUS FACTORY INSTALLED “DOUBLESIX CUSTOMS” PREMIUM BRAND ACCESSORIES

In every profession, there is a venerated place. For truckers it is Route 66, gateway to the Pacific, witness to the growth of a nation. DoubleSix is a new line of custom accessories from International, a company with a heritage as authentic as “Mother Highway.” For the professional driver whose life is reflected in the flash of his profile, DoubleSix turns a truck into a personal statement. A machine into a manifesto. **my Truck. my Way.**

3 AUTOMOTIVE QUALITY BASE COAT/CLEAR COAT PAINT FINISH

A multilayer finish features a high-concentration color coat sealed with a clear urethane outer coat – for incomparably deep, rich color that looks factory new for years.

4 UNIQUE CUSTOMIZATION

LoneStar responds to the demanding needs of those who make their living on the road, but not at the expense of style. This truck offers drivers a unique exterior with classic details, not to mention a seemingly infinite array of over 40 factory customization options that include chrome, paint, and lighting. The LoneStar can be customized to be as original as those who drive it.

- Grille: Distinctive and stylish chrome grille
- Air Cleaner: Stainless steel air cleaners—proprietary and muscular
- Exhaust Stacks: Optional 7” B-pillar chrome exhaust stacks to announce your arrival
- Paint Schematics: Laser taping custom paint schematics done with ultimate precision

A NAVISTAR COMPANY

Own the Road

5 INNOVATIVE SLEEPING SPACE WITH THE SUITE INTERIOR

The interior suite of the LoneStar® enables drivers to own the road in comfort while working, living or resting. The front cab is ergonomically advanced for ease of driving, and the rear cab looks like an apartment, yet works like an office. The LoneStar was designed to truly be a home away from home for drivers.

6 ULTIMATE RIDE QUALITY

LoneStar also provides extremely low noise, vibration, and harshness. Behind the wheel, this driver-friendly truck keeps you comfortable and safe thanks to an ergonomically advanced instrument panel that maximizes visibility and puts a premium on gauge accessibility.

7 SUPERIOR MANEUVERABILITY

With a 55" wide-track front axle, LoneStar delivers superior maneuverability and handling, with a 50° wheel cut and optional roll-stability.

Make More Money

8 5-15% MORE AERODYNAMIC THAN COMPETITIVE CLASSIC TRUCKS

With fuel prices at an all-time high, LoneStar had to provide superior aerodynamics to enhance fuel economy. LoneStar makes the most of every drop of diesel with its styled hood and grille, large bumper, D-shaped cans and skirts. In the end, that puts more money in drivers' pockets.

9 AERODYNAMIC PERFORMANCE ON PAR WITH OTHER COMPETITIVE AERO TRUCKS

- Hood and grille: Styled hood and grille allows smooth flow around sides
- Skirts: Skirts achieve aero advantages with a classic bright design
- Air Cleaners: D-Shaped air cleaners reduce drag

10 LARGE V-FORM BUMPER IS SHAPED TO IMPROVE AERODYNAMICS

Chrome plated to promote good looks as well as easy clean-up and resistance to nicks.
