

Sheltered Cove Marina's twenty two acres are located at the entrance to Tuckerton Creek. Our 250 deep water slips are well protected and off both fixed and floating docks. The Beach Haven inlet and open water is less than 10 minutes away. Whether you are headed to the inshore reefs, canyons, or just into the bay, all locations are easily reached from our marina. Our central location makes us a great port for cruising to Atlantic City, Long Beach Island, Point Pleasant, and Cape May!
