

St. Paul Harley-Davidson® and  
Wild Prairie Harley-Davidson®

SEMINAR 2

# EXPAND — YOUR — KNOWLEDGE

Join **St. Paul Harley-Davidson®** and **Wild Prairie Harley-Davidson®** for our **SIX PACK OF SEMINARS**. Each seminar is designed to enhance your knowledge and get you ready for spring riding. These seminars will be held simultaneously at noon at each dealership on Saturdays starting February 11 and running through April 7. They will run approximately 50 minutes. Each week's seminar will cover a different topic that you won't want to miss.

## Six Pack of Seminars – #2 PERFORMANCE TUNING

Saturday, February 25, 2012 • 12 p.m.

Performance tuning is not necessarily the same thing as the lowest elapsed time at the strip or a pretty dyno graph with big numbers at wide-open throttle. Though these can be objectives, performance tuning is getting the most out of the package you built. More importantly – it's dialing in your bike to your needs. There are many tools and many tuning aids available. Each has their own variety of system adjustment capabilities, many of which are more relevant to the quality of the ride than horsepower or torque. Our Lead Technician will walk you through the art of true performance tuning. We won't try to turn you into pro-tuners, but you will better understand a healthy state-of-tune.

Hosted by: **St. Paul Harley-Davidson®** & **Wild Prairie Harley-Davidson®** Service Departments

### ATTENTION MVP MEMBERS

Receive one (1) MVP point for attending.

*Only one point per MVP member, per Saturday.*
