# GRASS/BRUSH

When it comes to roadside maintenance, Walsh Equipment can skillfully handle all sales and service of Mowing Equipment and Tractors. As one of the nation's first distributors of Tiger Mowers, Walsh Equipment has always been on the cutting edge. Since taking on Tiger in 1975, Walsh has been Western and Central Pennsylvania's leader in sales and service of Boom, Rotary, and Flail Mowers. Complimenting our full line of Tiger Mowers, Walsh can provide contractors and municipalities with a wide variety of tractors to match your needs and preferences. For over 40 years, Walsh has been an authorized dealer of Massey Ferguson tractors and equipment. In addition, Walsh Equipment is proud to offer both New Holland and John Deere tractors through Tiger's state co-op. When it comes to grass and brush; Walsh can meet your roadside maintenance needs.

## MODELS

### Boom Mowers

**Tiger Saber Tooth-** The Saber Tooth is our biggest and most powerful model. Its rotary mower head can easily mow down tree limbs up to 8" in diameter, and for grass and light brush areas, the flail head can cut tree limbs up to 4" in diameter. The Saber Tooth boasts a reach out of 25' and for trimming tree lines, it can reach upward more than 22.5'.

**Tiger Bengal-** The Tiger Bengal Series Boom Mower is the mower that changed the industry and today it continues to be the most popular boom mower on the market. The Tiger Bengals Series Boom Mower is versatile and dependable. It can be fitted with a variety of mower heads from 50in to 63in both rotary and flail. It also has an outward reach of more than 20'ft allowing you to get to the toughest spots.

**Tiger Cheetah-** The Cheetah is a premier boom mower for a compact tractor. This power-packed unit possesses a reach out of 17' and can reach up to 14'. The efficient and robust Cheetah rotary head can slice through a 4" diameter tree.

### Rotary Mowers

In roadside ditches all across America, Tiger rotary mowers have earned their reputation for durability. Rotary mowers have the following benefits:

Versatility: Can mow grass and brush

Strength: Heavy duty construction reduces downtime

Speed: Unique cutter assembly cuts quickly and clean

Tiger Rotary Mowers are available for side, rear, and twin mounting.

### Flail Mowers

Flail Mowers are excellent for cutting grass of all types. By using smooth cut knives, flail mowers are used in parks, golf courses, sod farms, airports and school grounds. Using standard cut knives, the units can easily cut tall grass and small brush in roadside ditches. Flail Mowers are available for side, rear, and the industry leading Triple Gang configuration.

1. Deere 5525 L SIDE CHEETAH, 2. Deere 5525 with TRB 50, 3. New Holland TV140SID with Rear Stow Boom, 4. Massey 5455 Tractor, 5. Massey 573 with Sweepster, 6. Tiger Joystick Controls, 7. Tiger Triple Gang Flail
