# DYNA HAULER®/MDC

## MEDIUM DUTY CHASSIS DUMP BODY

For over 40 years we've listened to the needs of our customers and incorporated their recommendations into our products, and that's exactly how we developed the **DYNA HAULER®/MDC**. The MDC is a real DOT favorite, as it can be easily outfitted with snow plows and/or spreaders. Its dump body (9', 10', 11' or 12') is custom engineered for a medium duty chassis and comes with J&J's exclusive 50725, 15-ton hoist. Our standard package comes in either steel or aluminum and includes many ready-to-work features such as a 3/16" structural tubing top rail (steel body), sideboards, a cab protector and more. Of course at J&J, we pay attention to quality and finished appearance as well. Look below for some of the specifications of the **DYNA HAULER®/MDC** dump body.

### STANDARD STEEL SPECIFICATIONS:

#### Length

9' to 12'.

#### Cab protector

10 ga., high-tensile, 1/2 length/full width, load bearing.

#### Side Panels

10 ga., high-tensile, 26" high, with 2" x 4" x 3/16" structural tubing top rail and 8" sideboards. Front and rear posts plus three side posts. Sloped, dirt shedding rubrail.

#### Floor

3/16", A-572 with .20 copper, full width.

#### Understructure

4" structural channel cross-members on 12" centers (5.4 lb./ft.), 6" I-beam longitudinals (12.5 lb./ft.).

#### Tailgate

34" high. Includes tailgate chains and top standard tailgate hardware.

#### Hoist

Exclusive J&amp;J model 50725, 15-ton hoist with safety prop.

#### Lighting

Truck-Lite sealed and shock proof system. Body-up light and pto light with premium inside controls.

#### Other standard features

self-cleaning inside shedder plate. Ladder and steps. Tarp rods. Rear mud flaps and front mud guards. Back-up alarm.

### POPULAR STEEL OPTIONS:
