

Michigan Avenue Bridge at Brookley Entrance to Close August 30

The Michigan Avenue bridge at Brookley entrance will close for repair and to traffic beginning Monday, August 30, 2010. It will remain closed for approximately 18 months, requiring all the traffic to and from the Brookley Complex to use alternate routes through the I-10 exits 22 (AL-163 S/Dauphin Island Parkway) and 24 (Broad St/Duval St).

While the portion of the bridge above the I-10 will remain open to traffic, it is the section between the I-10 east-bound exit ramp and the Broad St & Michigan Ave intersection that will be closed due to the construction work.

All Brookley businesses and visitors are thus advised to use I-10 exits 22 and 24 to enter or exit Brookley. For directions, please see the attached map and the options listed below. Any questions regarding this project should be directed to David Yarbrough with the Mobile Airport Authority at 251-650-2624 or at david@mobairport.com.

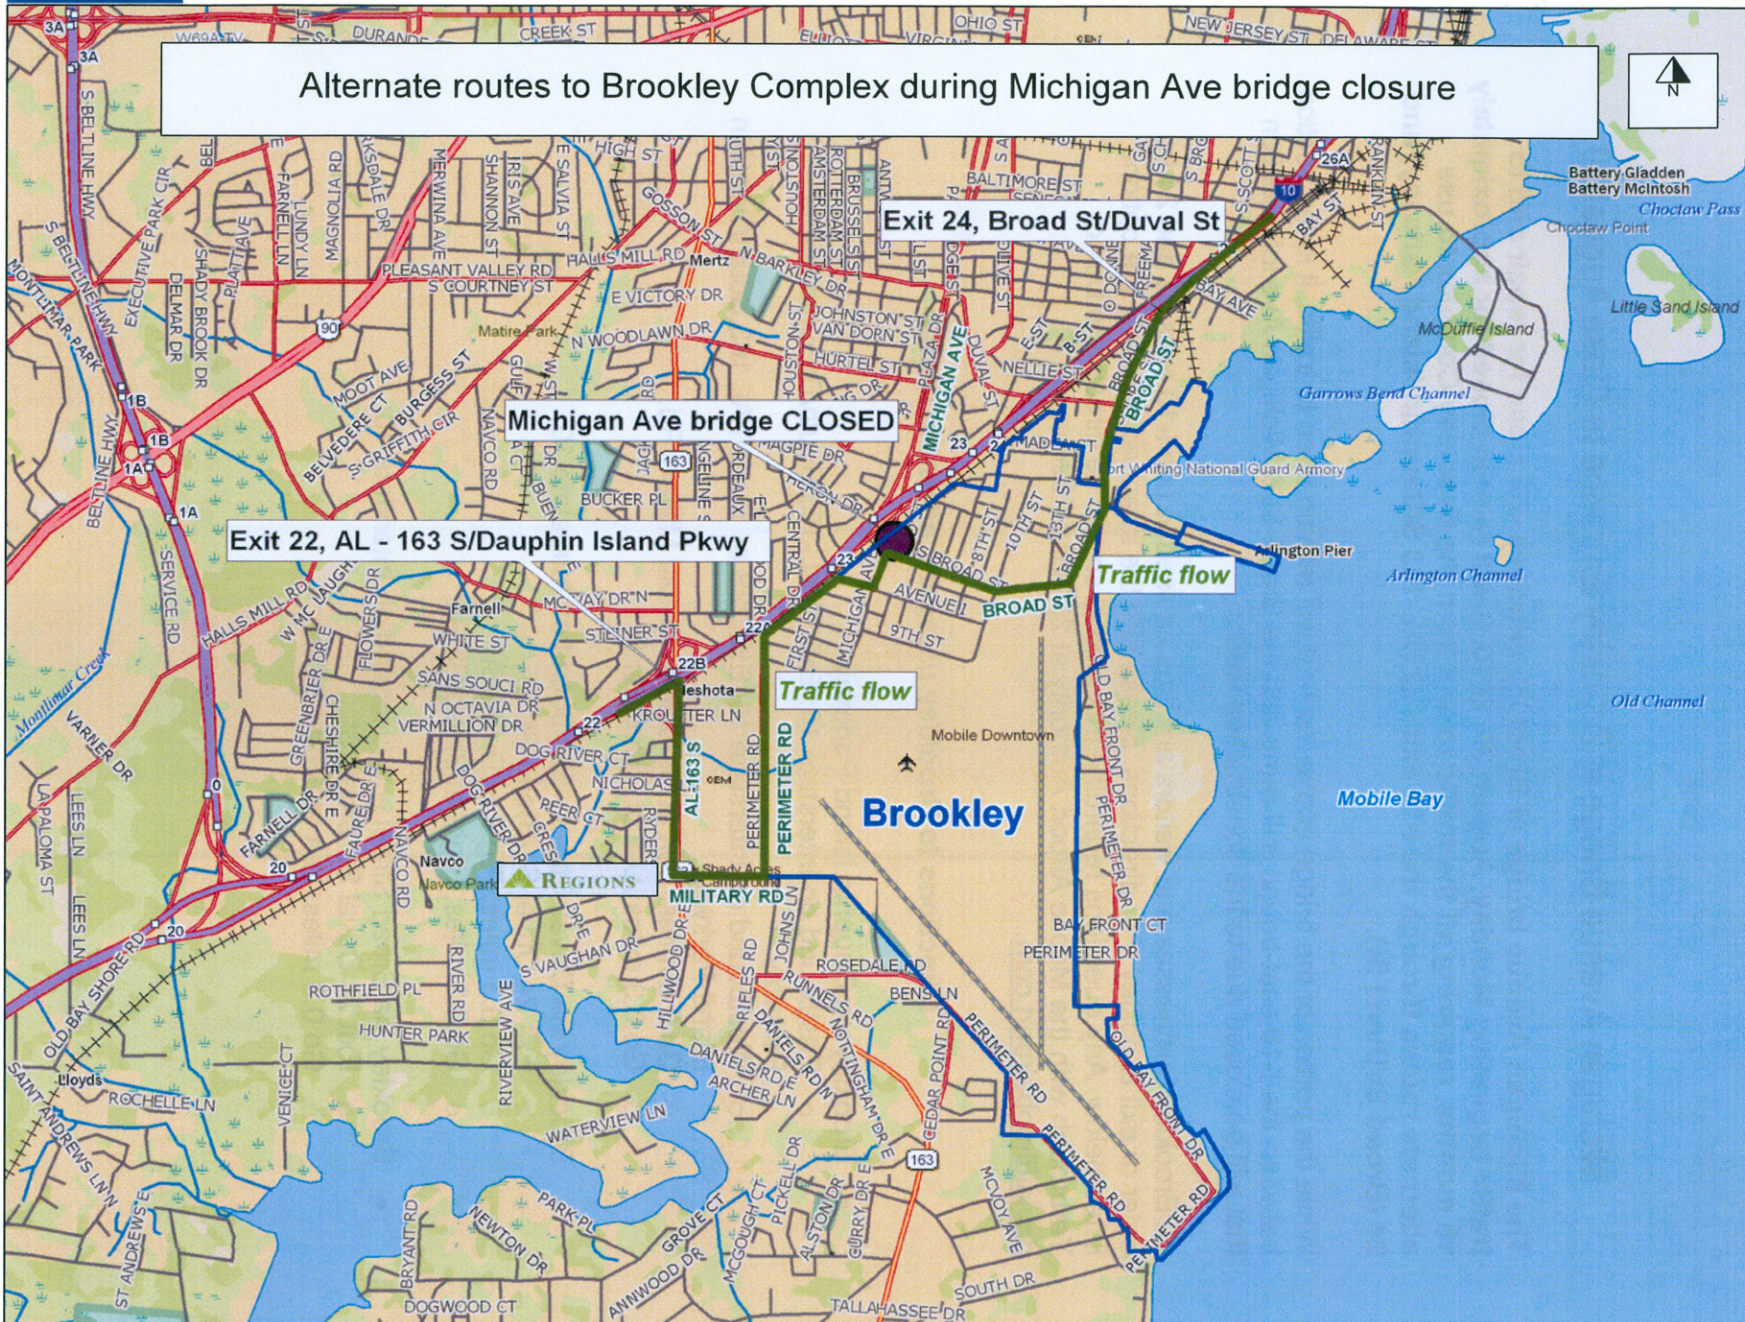

Directions to Brookley using the alternate routes

- Brookley via Dauphin Island Parkway:
 - Eastbound on Interstate 10: Exit 22 AL-163 South/Dauphin Island Parkway
