

# ALL THE BENEFITS OF LED LIGHTING *& MORE!*

## PREMIER™ Vertical LED Light bars . . .

- Last 40,000 hours
- Emit 700 Lumens  
(equivalent to a 35W halogen bulb)
- Consume 75% less power than halogen
- Better light dispersion than halogen
- Have an optimized light output, minimizing  
mast/rain guard glare
- Eliminates mast shadow, providing excellent  
lighting from ground level up to 25ft. shelving
- Have a slim profile allowing for flush mounting  
against the mast that minimizes  
operator sightline obstruction
- Have an IP Rating of 69K which means they are  
pressure wash, heavy rain and dust resistant.
- Requires no additional guards or complex mounts
- Are rated for 12V systems
- Are UL approved
