Hyster Announcement

10/25/10

I am pleased to announce that effective October 1, 2010 our company added the Hyster product line to our existing Yale line in Southwest Missouri, portions of Central Missouri, and nine counties in Southeast Kansas. We have changed the name of our company to Gammon Equipment Company, Inc. to reflect our increased product offering. We've spent the last three weeks putting the systems in place we need to service your needs.

Gammon Equipment Company was founded in 1962. We have six facilities in Missouri and Arkansas, four of which represent only the Yale product line. We do a great job with service. You can expect excellent service not only from our shop, but from our salesforce, parts department, rental department, and accounting department. We look forward to bringing this service attitude to existing and new Hyster customers.

Hyster has a rich heritage of providing tough, quality equipment to the most demanding applications. Hyster product has proved its worth in the paper industry, wood products, steel, heavy manufacturing, poultry processing, etc..... Hyster has also enjoyed excellent market share where big capacities are required from 15,500 pounds to over 100,000 pounds. The Hyster slogan is "bring it". It means if you have a tough job because of the environment, the load size, the duty cycle, or because it's unique, you can bring it to us and we're confident we can provide the right product for the job. Hyster forklifts have stronger, beefier components (frame, mast, axles, etc..) than most of our competitors.

We're excited about being a Hyster dealer and our team is looking forward to meeting you in person if we haven't already. The enclosed sheet provides contact information for our dealership.

Greg Gammon
President
